THE UNITED KINGDOM

Why the higher response rate in the UK (613 started, 417 complete responses)?

Why do LIS Professionals have higher confidence in the UK in terms of copyright literacy than elsewhere in Europe ?

UK institutions are more likely to have a dedicated Copyright Officer and an institutional policy. *However this study doesn't really examine what they do, whether makes a difference.*

Why are UK institutions not aware of international jurisdictions or organisations (e.g. WIPO, EIFL) working in this area?

EDUCATION & CPD

EDUCATION & CPD: WHAT SHOULD IT COVER?

General copyright awareness / copyright duration/ using images /fair dealing and quotation / digital content rights / creative commons / understanding terms & conditions & re-use licenses / implications of non-compliance (but in a good way using carrot not stick).... Whatever it is it needs to be clear and as jargon free as possible to stop people glazing over.

EDUCATION & CDP: WHAT SHOULD IT COVER?

General copyright awareness / copyright duration/ using images /fair dealing and quotation / digital content rights / creative commons / understanding terms & conditions & re-use licenses / implications of non-compliance (but in a good way using carrot not stick).... **Whatever it is it needs to be clear and as jargon free as possible to stop people glazing over.**

FEEL THE FEAR

I think copyright can seem daunting if you are not familiar with it, and by encouraging an awareness at an early stage, this would reduce any anxieties to follow.

I find that people are often scared of copyright...

FOCUS ON POSITIVES

Copyright education should:

*...reflect the fact that most LIS practitioners have significant **exemptions** and **freedoms** as regards copyright. Much existing copyright education is effectively written from a commercial rightsholder perspective and tends to be unduly dogmatic as a result.*

EMBEDDING IN LIS EDUCATION

I have just finished my MSc and we had limited information on copyright law provided, the little I know I know because colleagues have shared it with me.

I don't remember copyright issues being addressed at all in my Postgraduate course and I think this was unfortunate.

KEEPING UP TO DATE

...I still need to know what I am allowed to do and for whom, especially as digitisation has changed the field completely. We need updates on how legislation has changed and what a difference this makes to our work.

TRAIN THE TRAINERS

Encouraging more general awareness of copyright issues so librarians/info specialists can educate academics about complying with copyright law. Also practical awareness for students' creative work and using [copyright] material in their own work.

SO WHAT ARE WE DOING?

**We're on a mission to make copyright
engaging, fun and empowering...**

ENGAGEMENT*

*No endorsement implied

COPYRIGHT CARD GAME

Designed to teach librarians about copyright works, usages, licences and exceptions

Making copyright interactive and engaging

Downloaded over 1,800 times and consistently positive feedback

Creative Commons Licensed

CONCLUSIONS AND FURTHER RESEARCH

- © Need for more cross-national analysis
- © Librarians likely to compare favourably to other professionals?
- © Need more qualitative data to investigate
 - © How copyright literacy is effectively embedded in education
 - © How to develop a effective approach to copyright literacy
- © Understand the role of the generalists vs dedicated copyright professional
- © More engaging training
