7th International Conference on Through-life Engineering Services (TESconf 2018)

Foreword

On behalf of the TESconf 2018 International Scientific Committee and Organizing Committee, we would like to welcome you all to the 7th edition of the International Conference on Through-life Engineering Services taking place at Cranfield University, UK, on November 6th and 7th 2018.

The TESconf series aims to gather researcher and industry to present engineering innovation and scientific progress in prognosis, detection, and management of damage to enhance the reliability of critical components and technology-intensive high value products. This edition of the conference includes six academic sessions that broadly covers the latest advances in Through-life Engineering Services, degradation prognosis, management of reliability and obsolescence and digital engineering services. In addition to five keynotes from academics and industrialist and a debate on the Future of TES, attendees will benefit from two workshops focused on technology and Digital TES.

TESconf has become a reference conference in which industry and academia meet and we are excited to welcome them at Cranfield. We hope that the presenters and participants have a fruitful exchange of technological and scientific advances. We would like to thank members of the organising team, reviewers and participants for their valuable scientific contributions. We would also like to thank all our sponsors for their kind support for the conference. We hope you enjoy the conference and wish you an enjoyable at Cranfield.

Dr. Gustavo M. Castelluccio
Program Chair TESConf 2018

Through-life Engineering Services Centre
Cranfield University, United Kingdom

Professor Rajkumar Roy
General Chair TESConf 2018
Director of Manufacturing
