Last Days Sound Sources

SAMPLES

0.1_b1_Birdsongcloud

A twitchers nightmare - birds from across my travels - collected and canned in my phone. Lundy has Manx Shearwaters - eery sound recorded at night in bursts not interrupted by drunken celebrations in the house we stayed at.

Strada della Scarpellinata (Bolsano-Italy) - Welgate (Norfolk-UK) - Lundy Island (UK). All iphone recordings

Harmony assistant - virtual singer— separating voice types

This sound of sacred harp/psalm singing relies on a few things (that I enjoy about it - other than harmony - it is about a myriad of voices - not cleaned up like you might get with a professional choir

INSTRUMENT SETS

Wolf

Me mimicing a wolf - try as I might I couldn't get a clean wolf - recorded on a microphone and then EQ'd

Bird

365663__matrixxx__bird-thrush-nightingale-02 (Freesound)
Tiny burst from longer sample

Bottles

My own samples - one that I have used in gdgdbdbd and another I made because I couldn't find that patch for a while - it is generic.

Detuned Piano

Miraculously a piano from Abletons built-in plug-in set sounded good when covered by other instruments (pitched down 25 cents)

Medusa Swell

Sample instrument from a previous project using clay ocarinas made in collaboration with Michelle Ussher - Initially I thought I would use this instrument temporarily (because it has a contour that I thought might force new ideas) but the timbral quality during the snoring felt exactly right.

Orchestra - 12 ensemble tuning up - sample made during recording session of Non Voglio
Generic sound that I have used many times - thought it'd be nice to use them - I got them to do an impression of tuning up twice and over layed them so that they'd sound fatter.

Lead Buzz

Made at home with guitar lead and amp

Magician

Balloon letting out air and synthesizers stacked up

Whistle
